Objective:

Aspiring to gain comprehensive practical experience in the textile industry with a focus on weaving, designing, and smart textiles. Committed to contributing effectively to the organization by applying academic knowledge, technical expertise, and innovative thinking. Dedicated to continuous professional development and the acquisition of advanced industry skills to establish a successful and impactful career in the textile field.

Education:

B-Tech Textile Technology 2023-2027

Kumaraguru College of Technology - CGPA 8.92

Maths Computer science (12th) 2022-2023

GHSS Sirumugai- Percentage 83

Soft Skills:

- Good listening
- Teamwork
- Time Management
- Leadership
- Work Ethic & Adaptability
- Critical Thinking

Technical Skills:

- AutoCAD
- Excel in Data analytics
- C & C++
- Python
- Microsoft Office
- Canva

Project

Dynamic wireless charging of EV

Designed and simulated a wireless power transfer system for moving electric vehicles using Arduino IDE and electrical circuit design software.

Theatre Acoustics

Modeled and analyzed acoustic performance of theatre spaces using CAD-based simulation tools to optimize sound distribution and clarity.

Certification:

Mahatma Gandhi Merit Scholarship award for excellence in Academic year 2023-2024.

Mahatma Gandhi Merit Scholarship award for excellence in Academic year 2024-2025.

Internship / Research:

Bannari Amman Spinning Mill Limited-Weaving Division
Intern-Gained hands-on exposure to weaving processes, machinery operations, and quality control in a high-volume looms environment

Personel Interest

Designing
Weaving
Spinning
Smart Textiles
Medical Textiles
